

iPA 3000mAh

--A backup battery and charger for iPhone 3G/3GS

Your satisfaction is guaranteed, with our 30-day return privilege. We even email you a prepaid return label, to make exchanges easy, or if you would like a refund for any reason. All items ship to U.S. ZIP codes. (No sales tax outside California). Some items can be shipped to Canada. Look for the red maple leaf below, for those products that can be shipped from our Canadian warehouse.

"This is an all-new charger for your iPhone that comes with an impressive 3,000 mAh capacity! This is enough power to extend video playback up to 11 hours, Wi-Fi up to 10 hours, and standby time up to 500 hours!

There is no question that the iPhone lacks sufficient battery life. That's why a backup power source is so critical to have, and frustrating to be without.

Your iPhone simply slides into the charger, you will hear a click when the phone is secure, and your iPhone will start charging instantly. If you're running low on power, just simply slide it in, and leave it on your desk — you will have enough power to last all day. Plus, the battery charges using your own Apple cable, making it very convenient. You are getting massive power at an affordable price."

This slider-style iPhone backup battery packs a whopping 3,000 mAh of capacity. You will be able to increase your talk time up to 8.5 hours, and your standby time up to an impressive 500 hours! Never again will you have to worry about your iPhone running out of juice. This battery will get you through the day, and is an essential item for your iPhone, especially if you work long hours and need to be in constant contact.

Your iPhone smoothly slides down into the cradle, and immediately starts charging once connected. The design is comparable to the mophie juice pack™, but their model only has a capacity of 1800 mAh — this backup battery holds 3,000 mAh!

Additionally, you can use Apple's USB 2.0 cable and power adapter (supplied with your iPhone/iPod) to charge the 3,000 mAh

backup battery from either your computer's USB port or from a wall outlet. If you've been searching for an ultra-portable charger with awesome battery capacity, there's no better choice out there for the quality and price.

- Compatible with iPhone 3G, 3GS
- 3,000 mAh battery capacity
- Protects your iPhone while extending your battery life
- Uses your own Apple cable to charge battery
- Black high-gloss finish
- Standby time: Up to 500 hours
- Talk time: Up to 8.5 hours
- Internet use: Up to 8.5 hours
- Wi-Fi: Up to 10 hours
- Audio play: Up to 40 hours
- Video play: Up to 11 hours

Technical Specifications

- Measures: 4.5" x 2.6" x 0.9" (11.5 cm x 6.6 cm x 2.4 cm)
- Weighs: 3.5 oz (100 g)
- Battery capacity: 3000 mAh
- Output voltage: DC 5.5V
- Output current: 500 mA

Package Includes

- 3,000 mAh iPhone battery
- Instruction manual

FAQ

1. What do the LEDs indicate?

- Top LED: Indicates charging status of iPhone. If red, charging is in process. If green, the iPhone is fully charged.
- Middle LED: If yellow when iPhone is connected, the backup battery needs to be recharged.
- Bottom LED: Indicates charging status of the backup battery. If red, battery is in the process of being charged. If green, backup battery is fully charged.

2. What are the best methods for charging your iPa?

- Connect the iPhone assistant (iPa) to either your computer's USB port or Apple's USB power adapter using Apple's USB 2.0 cable.
